

Marsh - Biography 2024

Some artists exude total and unapologetic passion for their craft. Full immersion, absolute dedication and complete commitment; a calling much more than a career, a love much more than a labour, the realisation of a lifelong ambition.

An ambition like Tom Marshall's. A fan favourite on the roster of renowned UK label Anjunadeep and one of the breakout stars of the melodic house scene, Marsh has sculpted a distinctly warm, emotional sound since he first emerged in the mid-2010s. Inspired by his teenage love of the emotionally rich, early 2000s trance sound and the musicality of crossover drum & bass acts like Pendulum, he's distilled these disparate influences into a captivating and soulful signature style.

Now three albums deep into his career – his debut 2017 'Life On The Shore', the critically acclaimed Anjunadeep debut album 'Lailonie' in 2020, followed by his latest body of work, 'Endless' in 2023. Tom has an array of widely supported anthems in his discography, streaming well into the millions as well as releasing on legendary imprints Spectrum, Last Night On Earth, Cercle, SHÈN and Warner's Major Recordings.

As well as building a stellar reputation as a producer, Tom has established himself as one of a new generation of DJs set to follow in the footsteps of progressive house pioneers such as Eric Prydz and Sasha. With memorable headline sets at prestigious venues such as Printworks London, The Brooklyn Mirage and the infamous Red Rocks already under his belt. Add to that a slew of sold out shows including London Fabric and Exchange LA during his recent Endless Album Tour and the subsequent All Night Long Tour, where Marsh treated fans to an unforgettable open to close journey through his vast musical spectrum, this is the life that Tom has been working towards since he made his first beats a decade ago.

Since moving away from his UK roots to his current home in North America, and the nomadic, perpetually-touring lifestyle that has followed, Tom has been dropping quarterly livestreams exclusively to his YouTube channel garnering millions of views. Locations include Seven Sisters in the UK, Estes Park in Colorado, US, Castello Zamittello in Malta and most recently Kew Gardens in London.

Forever soul-searching, his craft continues to help him articulate his emotions and navigate his way through life's challenges. This emotional investment and wholesome commitment to his art, his fans and the culture, epitomises Marsh, and is consistent in everything he does. And everything he's about to do...
