Twenty-year-old rising alt visionary and musical polymath, **SOFIA ISELLA** has announced her **major UK and European headline 'Her Desire, The Nemesis UK/EU Tour 2026'**, culminating in her biggest London show to date at the iconic **Roundhouse on June 4th**.

News of the tour follows the release of **SOFIA's** latest single, **'Out In The Garden,'** a dark, shadowy, industrial-influenced track where haunting whispers unravel into a massive, cathartic rock chorus. Intimate yet towering in scope, the song challenges followers whose piety is intertwined with and relies on evil. **SOFIA** delivers enigmatic lyrics with a confident snarl, fuelling the growing obsession that surrounds her. The track was co-written and co-produced by **SOFIA** with **Mr Hudson** (Miley Cyrus, Frank Ocean).

Of the **'Her Desire, The Nemesis UK/EU Tour 2026'**, **SOFIA** says *"Desire in UK/ EU . I'll see the kids soon !"*

Fresh from a run of critically acclaimed sold-out UK headline shows and standout performances at **Reading & Leeds Festivals** this summer, **SOFIA ISELLA** will resume her **You'll Understand More, Dick** tour of North America in October where multiple shows have sold out in advance.

The newly announced **UK and European dates go on sale **HERE** from 10am BST/11am CEST on Friday, October 10th** and are listed below. Please see [HERE](#) for a list of all international shows.

**SOFIA ISELLA** has spent the past few years building an unsettling artistic vision, with her two previous EPs 'I Can Be Your Mother' and 'I'm camera .' defined by dark textures, arresting melodies, and her unflinching commentary on identity and power. A classically trained violinist and poet, she draws inspiration from **Sylvia Plath** and **Anne Sexton**, with musical touchstones ranging from **Nine Inch Nails** and **Radiohead** to **Fiona Apple** and **Lana Del Rey**. Her background in literature and music fuels a style that fuses visceral storytelling with layered, cinematic production — a duality of discipline and raw expression that has become her signature. Her song '**Hot Gum**' has accumulated more than 19 million streams, cementing her growing global audience. Alongside her recorded work, **SOFIA's** live presence continues to build momentum—she has opened for artists such as Taylor Swift and Glass Animals.
