Friday 28th August: **Take That** today announced the first wave of international dates for the *Dreamers Tour*, which will see them perform throughout summer 2027. Also revealed today was the title of the band's highly anticipated new record; *Dreamers*, Take That's 10th studio album, is due for release later this year, with more details to be unveiled soon. The band also teased a new single, *Feel My Love*, released next Friday (4th September). The new track features Irish-American singer songwriter **Michael Patrick Kelly** who is a chart-topping, arena artist whose latest album topped the charts in Germany and Switzerland. The new

EMBARGOED UNTIL 10AM ON FRIDAY 28TH AUGUST

single, alongside previous tracks *You're A Superstar* and *Sweet July*, offers a taste of what fans can expect from this next chapter in Take That's journey.

Fans can secure tickets from **10am local time on 2nd September** by pre-ordering ***Dreamers*** now - [link here](#). Venue presales are live from 10am local time on 3rd September, followed by general on sale from 10am local time on 4th September. Visit [takethat.com](https://www.takethat.com) for more information.

This new tour marks the band's biggest European run in years, with 24 shows in 24 cities across 14 countries, with more shows to be announced in the coming weeks. Consisting of festival and outdoor shows in beautiful locations and iconic European music venues, the band will perform music from ***Dreamers***, as well as classic hits from their back catalogue, in shows which are guaranteed to entertain audiences of all ages.

The tour kicks off on 3rd June in Switzerland, before visiting Germany, Poland, Lithuania, Estonia, Norway, Sweden, France, Northern Ireland, Ireland, Luxembourg, Spain, Italy and Austria, before wrapping up with a final date in Germany on 23rd July.

Feel My Love is the latest instalment of new music from Gary, Mark and Howard, who have been working on ***Dreamers*** whilst performing up and down the country on '*The Circus Live*' tour. With finishing touches being put to the album now, confirmed release details are on the horizon for the band's enduring, generation-spanning audience - an audience which has increased exponentially thanks to the band's huge summer of live shows.

Feel My Love sees Take That link with Michael Patrick Kelly, a unique talent who brings his songwriting skills to the upbeat track. Michael's voice blends perfectly with the band's, nestled within off the chart harmonies and verses tinged with country tones. The track was written by the band and Michael, alongside Jamie Scott (One Direction, Justin Bieber, Ed Sheeran) and Mike Needle (Tom Grennan, Niall Horan, Rag'n'Bone Man).

2026 has so far been another bumper year for the band and they're showing no signs of slowing down. Their Netflix documentary '*Take That*' went straight to Number 1 upon its release in February; they wrapped up the mammoth '*The Circus Live*' UK and Ireland stadium tour, during which over 736,000 tickets were sold; one Manchester show on the tour was livestreamed by Amazon Music across Prime Video, the Amazon Music channel on Twitch and the Amazon Music app and broke records to become the most watched UK livestreamed performance to date; and each piece of new music released so far this year has delighted fans and fuelled anticipation for the forthcoming official announcement of ***Dreamers***.

New track ***Feel My Love*** was preceded by *You're A Superstar* and *Sweet July*, with the former performed on each night of *The Circus Live* and the latter having taken the internet by storm since its release last month. The contemporary sound heard across these tracks signals a new era for the band who, over 30 years into their journey, continue to push themselves sonically with each new project.

Anticipation is high for this new body of work, ***Dreamers***, and Take That are ready to deliver.

EMBARGOED UNTIL 10AM ON FRIDAY 28TH AUGUST

About Take That

Gary Barlow, Howard Donald and Mark Owen are Take That in 2025 and continue the legacy of one of the most successful bands in British chart history, with over 45 million records sold worldwide and 12 No.1 hits in the UK.

Formed as a five-piece in 1989, they enjoyed immediate success with their first two albums charting at Number 2 & Number 1 respectively. Third album Nobody Else confirmed their global domination, selling over six million copies and topping the charts in 11 countries. The departure of band member Robbie Williams prompted a break-up in 1996 and nine years in the wilderness before the remaining four members reunited for 2005's The Ultimate Tour. This sparked one of the greatest comebacks in British music history with Take That going on to release three Number 1 albums in just four years. Robbie's return for 2011's Progress saw them break UK records for the fastest-selling album of the 21st century and fastest-selling tour of all time. Williams' second departure, along with that of Jason Orange, left the remaining three members to release III and 2017's Wonderland, which were certified platinum and gold respectively.

The band celebrated their 30th anniversary with the release of Odyssey in 2018, a greatest hits album featuring beautifully reimagined versions of some of their biggest tracks from a three-decade-spanning career. The album

EMBARGOED UNTIL 10AM ON FRIDAY 28TH AUGUST

entered the charts at Number 1 and was closely followed by a critically acclaimed UK and European stadium and arena tour in 2019.

With the release of their ninth studio album, *This Life* in 2023, the band scored their ninth Number 1 album and the biggest-selling album from a UK artist that year, outselling the entire Top 25 combined. In April 2024, Take That hit the road again with their huge *This Life On Tour*, which saw them sell over 700,000 across 41 dates in 15 cities in the UK, making it the biggest-selling tour for a UK artist that year.

2026 has so far been another bumper year for the band, with the release of Number 1 streamed Netflix documentary in February, the culmination of huge stadium tour '*The Circus Live*' during which over 736,000 tickets were sold, and the release of their 10th studio album later this year.
